Project 1 Wireframe Planning

The wireframe depicts a web browser window titled "Browser". The address bar shows "http://". A yellow callout box on the left contains the following text:

User is asked to provide fairly typical registration information.

After doing so, selecting the registration button, they will be forwarded to the Logged In page, from which they can play

The main content area of the browser has a light blue background. At the top, it says "GAme Portal" in a large, bold font, followed by "Welcome to the Registration Page" in a slightly smaller bold font. Below this, there are six input fields arranged in two columns:

<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>

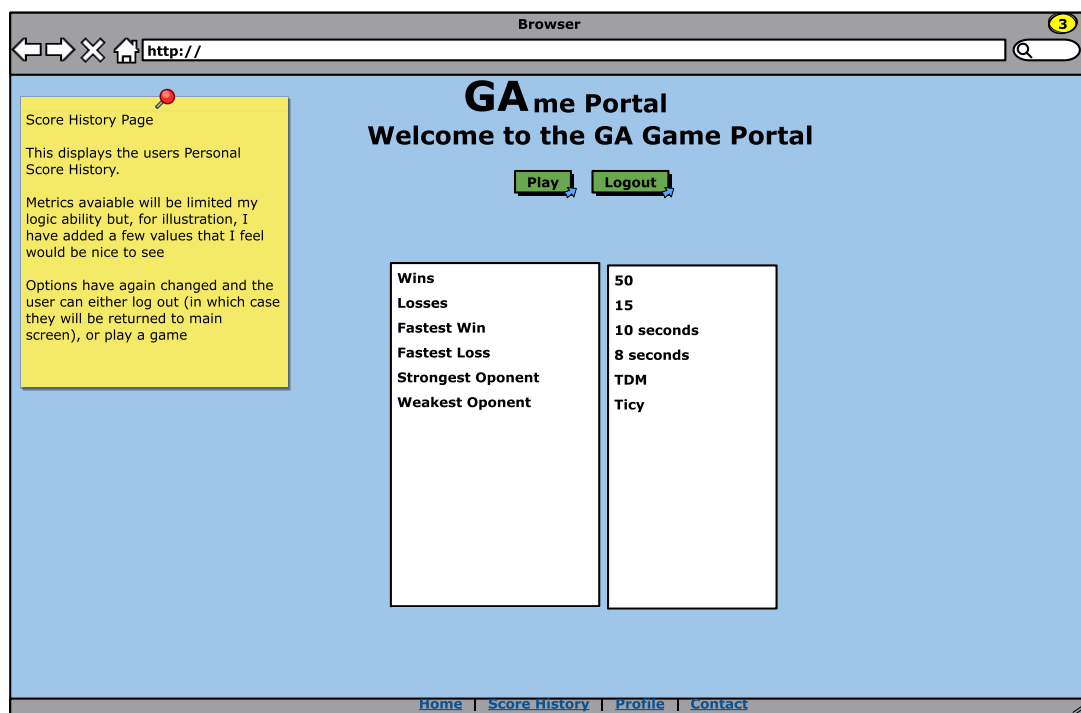

Below the input fields is a "Register" button with a mouse cursor icon pointing at it.

Project 1 Wireframe Planning

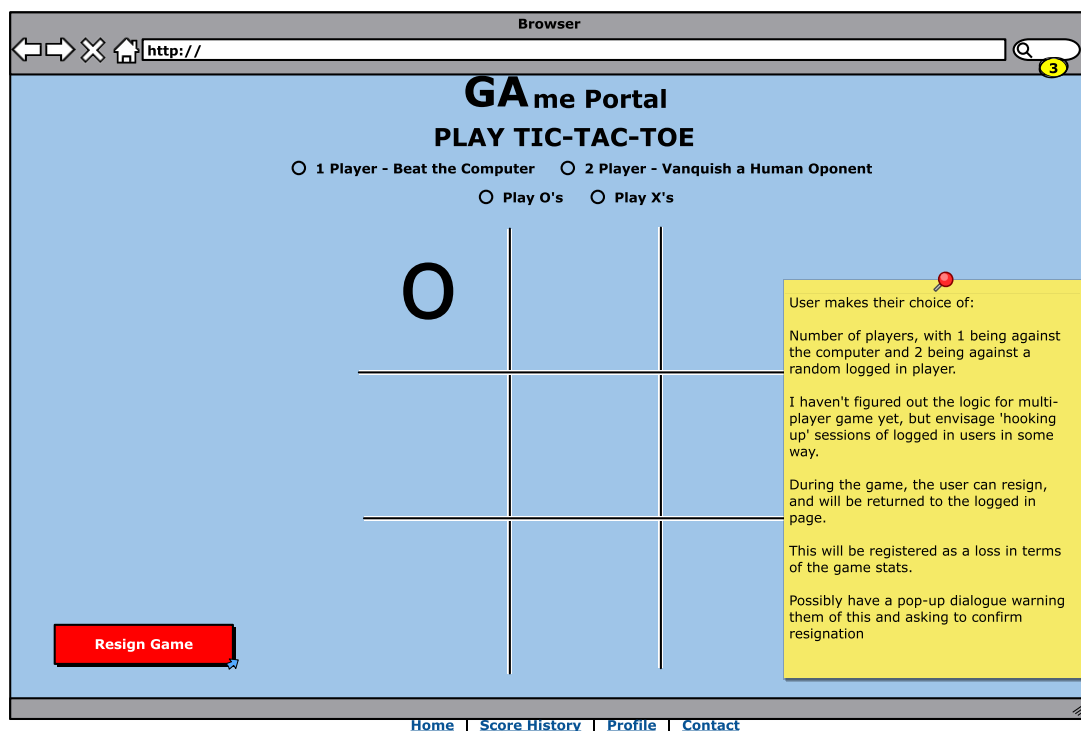

The wireframe depicts a web browser window titled "Browser" with a tab labeled "2". The address bar shows "http://". The page content is on a light blue background and includes the following elements:

- Header:** "GA me Portal" in a large, bold font, followed by "Welcome to the Profile Update Page" in a slightly smaller bold font.
- Instructions:** A line of text stating, "Simply enter your new information in the appropriate field. When finished, confirm your password and press update profile".
- Form Fields:** Five input fields are arranged vertically on the right side, each with a label above it: "First Name", "Last Name", "User Name", "E-Mail", and "Password".
- Submit Button:** A button labeled "Update Profile" with a mouse cursor icon pointing at it, located below the form fields.
- Annotation:** A yellow sticky note is pinned to the left side of the page with a red pushpin. It contains the text: "User can change all information other than password".
